

Subscriber Corridor Box - Low Profile - Unloaded - White

Product Overview

A low visual impact box, that can be installed flush to the ceiling, reducing the risk of tampering.

Provides a location outside each dwelling to loop corridor cable, drop off one fibre and splice to a pigtail; ready for customer connection.

Features

- Compact/discreet
- Multifunctional (Splice/Patch)
- Up to 2LC terminations or 1SC termination
- Indoor Installation
- Impact resistant enclosure
- Clip on lid
- Up to two customer drops
- 4 x entry ports
- Midspan through channel
- Through wall access port
- Dual gang box compatible

Applications

The SBS Wallbox was developed to be a discreet product, deployable either at the end of drop cables or mid-spanned along multicore fiber routes.

The product has the ability to accommodate splice only or Splice and patch. Simple to install, for future-proof infrastructure.
