

Cabinet Base Sealant

Product Overview

A 2 component sealant used to seal the base and ducts of street cabinets.

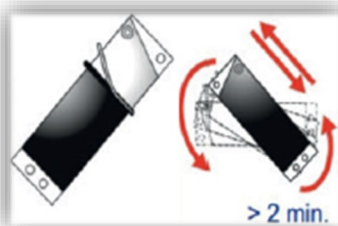

The casting resin prevents the ingress of pests and weed growth as well as sealing the cabinet against water & gas ingress from below.

Additionally, the sealed base of the cabinet improves the ambient climate within the cabinets itself, promoting air circulation within the enclosure.

The kit includes:

- Foam cavity fillers for use with 54, 96 and 110mm dia ducts (x4)
- 2.5ltrs of resin and activator (sealed bags)
- Application tube
- Protective gloves
