

Microduct End Cap 25mm

Application

Hexatronic mechanical duct fittings are developed to connect PE optical fibre duct systems ranging from 16mm up to 160mm.

The fittings are designed to withstand working pressures of up to 16bar.

Compliance

| | | |
|-----------------|----------------|-------|
| Insertion Force | EN 50411-2-8 | <120N |
| Retention Force | EN 50411-2-8 | 200N |
| Impact Force | IEC 60794-1-21 | 15J |

Typical Data

| | |
|-----------|-----------|
| Material: | |
| Body | Polyamide |
| Seal | NBR |
| Washer | Polyamide |
| Collet | Polyamide |

| | |
|-------------------|--------|
| Working Pressure: | |
| 3-7mm | <10bar |
| 10-20mm | <15bar |
| Max pressure | 20bar |

| | |
|-----------------------|------------|
| Temperature Range: | |
| During operation* | -40 to +65 |
| During installation** | 20 to +50 |

| | |
|-------------------|----------|
| Protection Class: | IP68, 5m |
| Impact: | 15J |
