

Customer Termination Box– Brown

Fibre to the home subscriber wallbox

Product Overview

The Cityfibre customer termination box (CTB) was developed with both Cityfibre and delivery partners to operate as a universal external enclosure that offers both discreet and functional FTTP customer deployments.

With the ability to accommodate splice only or splice and patch to deliver and install future proof infrastructure. The box is a high quality ABS housing that can be supplied in white, black or brown. Internally the box comes equipped with a fibre storage module and a customer patch plate that houses the fibre optic patch.
