

Indicator Cap Divisible Strain Relief Insert

Yellow - For 2mm Fibre

Features

- Re-use of standard indicator caps
- Simple divisible seal for Blown drop cables
- Can be retro fitted
- Water sealing and strain relief

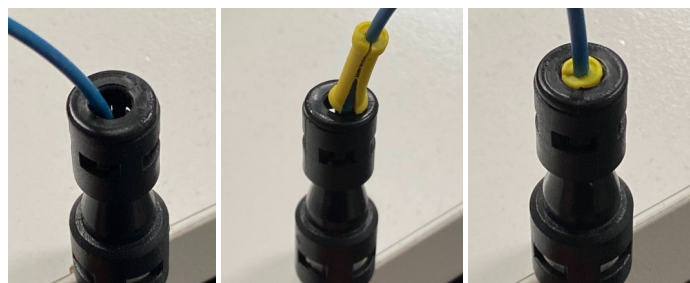

Design

Thermoplastic Split seal, Bright yellow to offer clear visibility that the cable seal has been fitted.

Application

The Divisible Seal is developed to be used in the FDCX-RED-IND Indicator product in combination with Drop cables.

The Split Divisible seal is added after the cable is installed to provide strain relief and a water seal.
