

10015068 - Duct Access Toby Tooling

Duct Access Tooling for Duct Interception

Product Overview

Duct Access tooling facilitates safe entry and egress from ducts already in use.

Two options are available, one for 96mm duct which offers a cutting window in situ, the 54mm version provides a stable window for marking.

Features

- Simple to use tools, aiding safe duct access
- Durable steel construction
- Simple to operate
- Defined cutting position
- Integrated level
