

## 10015702 - TOBY UMD Stacker incl 2 clips

### Product Overview

Developed to be compatible with the full Hexatronic TOBY range the Stacker allows the under modules to be extended upwards and side by side.

Two clips, included, help to secure the bridge when two or more are required to be placed next to one another.

Can be stacked to create a micro chamber for shallow applications when there are space limitations.

### Applications

- Height adjustment for existing Toby boxes
- Stackable micro chamber
- Bridge link between Toby Boxes
- Accommodate two ports on top of a Toby

### Features

- Stackable Micro Chamber
- PP – Recycled Material
- Compatible with full Hexatronic Toby range
- UK Design and Manufacture
- Two clips included for bridging two Toby boxes side by side
- 2 variants of compatible lids include:

TOBY STACK BLANKING PLATE  
TOBY STACK DUAL 25MM PORT LID

### Specifications

Designed to dimensionally fit the top of all Hexatronic Toby boxes.

Internal aperture dimensions : 172mm x 86mm
